**Oil is as soft and sticky as cream**

Qi Nan's oil is very rich and full of creamy oil that is about to come out. The combination of oil and wood is sufficient for the accumulation of oil, which is soft, sticky, and resilient. There is a noticeable sticky feeling when using it

### Rich fragrance and unforgettable aroma

The head, middle, and tail fragrances of Qinan agarwood all have distinct and clean filamentous orchid sweetness when first smelled, instantly conquering the sensation and accompanied by a faint coolness when smelled again. The color background produces a rich milky aroma, while the tail fragrance is rich and creamy, Clear hierarchy, silky entry into the nose, and strong persistence of aroma in the air
